

# **Attention Transit Riders: For Your Health and Safety**

**We wanted to assure you that OCO's Public Transit team is following CDC guidelines on public transportation safety to help protect against community spread of COVID-19.**

**We are thoroughly cleaning and sanitizing buses and vans before *and* after each trip to ensure passenger safety.**

**Social distancing will continue to be encouraged and riders are asked to wear a face mask or covering. For those who do not have one, masks will be available.**

**Thanks for your patronage! It is our pleasure to serve you!**

**For more information, call us at 315-598-1514.**

**To prevent the spread of COVID-19, as well as colds and flu, everyone should:**

- Stay home when you are sick.
- Wash your hands often with soap and water for at least 20 seconds, especially before you eat and after using the bathroom.
- Cover your cough and sneezes with a tissue and discard in a closed container.
- Clean frequently touched surfaces and objects.
- Avoid close contact with people who are sick. Keep a distance of at least 6 feet to help slow the spread of COVID-19.
- Wear a face mask or covering if you cannot maintain social distancing.

**If you have symptoms, call the Oswego County Health Department for guidance: 315-349-3545**
